Sex and Gender in Pop/Rock Music Walter Everett,2023-05-04 Following the 1960 s sexual revolution rock and pop have continued to map the societal understanding of sexuality feminism and gender studies Although scholarship has well established how early rock and roll encouraged and affected issues of sex in the baby boomer generation this book asks how subsequent pop music has maintained that tradition The text discusses the gendered performances and biographical experiences of individual musicians including Patti Smith Rufus Wainwright Etta James and Frank Ocean and how their invented personae contribute to musical representations of sexuality It evaluates lyric structure and symbolic language of these artists and overall emphasizes how pop music while a commodity art form reflects the diversity of human sex and gender

Why do rap MCs present their studio recorded lyrics as live and direct? Why do they so insistently define abilities or actions theirs or someone else's against a pre-existing signifier? This book examines the compositional practice of rap lyricists and offers compelling answers to these questions. Through a 40 year span analysis of the music it argues that whether through the privileging of chanted call and response phrases or through rhetorical strategies meant to assist in getting one's listening audience open the focus of the first rap MCs on community building and successful performer audience cooperation has remained prevalent on rap records with lyrics and production techniques encouraging the listener to become physically and emotionally involved in recorded performances. Relating rap's rhetorical strategy of posing inferences through intertextuality to early call and response routines and crowd controlling techniques this study emphasizes how the dynamic and collective elements from the stage performances and battles of the formative years of rap have remained relevant in the creative process behind this music. It contends that the customary use of identifiable references and similes by rap lyricists works as a fluid interchange designed to keep the listener involved in the performance. Like call and response in live performances it involves a dynamic form of communication and places MCs in a position where they activate the shared knowledge of their audience making sure that they know what they mean thus transforming their mediated lyrics into a collective and engaging performance.

Chase for Cocaine's High at All Time

Low Tommy Khoa Dang Lieu, Law enforcement around the world have put a strangle hold on the cocaine industry. As a result drastic changes in the potency and physical properties of the cocaine available in the eastern Canadian market have occurred over the past 25 years. Not only have there been changes to the drug itself but these changes have also resulted in transformation of the behaviour of users and the areas of Toronto and other major world cities affected by cocaine trafficking and use. The bottom line: The cocaine available today is measurably less potent and of a far lesser quality than that available in the past. And this deterioration is only going to continue as global trends suggest that it will be next to impossible to produce cocaine of the same potency as 25 years ago particularly due to the success and progress of law enforcement across the globe. Tommy Khoa Dang Lieu chronicles his experiences in the cocaine and drug trade weaving a compelling argument that combines lived experience with hard data to paint a picture of the decline of the once lucrative cocaine industry.
