**Adults** Debra P. Hymovich,Gloria Ann Hagopian,1992 Provides a model to analyze the impact of chronic illness on the large population patients and families who are affected by it Illustrates a systematic approach for psychosocial assessment and interventions This text brings together ideas from extensive research and provides a perspective on chronic illness throughout the lifespan Through case studies and a well researched nursing model the book provides innovative approaches for the hospital and community based nurse Special features include a review of literature specific to chronicity excellent diagrams and charts to highlight content and chapters on time coping orientation to life and stressors **Shaping a New Health Care System** Anselm Strauss,Juliet M. Corbin,1988-09-30 In Part One we introduce the reader to chronic illness the

U S health care system s approach to chronic illness and the need for the system s major reform We also provide a conceptual model of the experiences of the chronically ill In Chapter One we briefly introduce our perspective on the implications of chronic illness for the U S health care system In Chapter Two we address the prevalence and complex nature of chronic illness and in Chapter Three we summarize some of the major responses of the health care system to the increase in chronic illness We discuss the weaknesses of the conventional acute care approach to chronic illness in Chapter Four noting the various criticisms that have been made of it and the critics suggestions for how long term illness and disabilities could be managed We also point out how we agree and disagree with the critics In Part Two we illustrate how the ill and their marital partners experience chronic illness and its management These experiences have implications for health care policy some of which are pointed out in the accompanying commentaries Chapter Five is central to this book for in it we offer our new theoretical framework for dealing with chronic illness and its increasing influence on the U S health care system and policies In Chapters Six through Nine we describe four distinctly different stages of chronic illness comeback phases stable phases unstable phases and deterioration In each chapter we present case illustrations and commentaries on relevant policy In Part Three we summarize the implications for health care practice and policy that can be derived from the case illustrations provided in Part Two In Chapter Ten we detail some of the possible effects on health care practitioners of adopting our framework And in Chapter Eleven we summarize our conceptual model and present some of the major policy implications of our perspective

Families and Health W. J. Doherty, Thomas L. Campbell, 1988-04 Families and Health is the first textbook to present an overview of the research on the relationship between families and health placing an emphasis on common family patterns related to health and illness and interactions between families and the health care system The volume includes discussions of family experiences with health promotion and risk reduction vulnerability and illness onset illness appraisal acute response and adaptation to illness Separate chapters address each of these situations in relation to such areas as cardiovascular disease cancer diabetes and bereavement

*Orthopaedic Nursing* Ann Butler Maher, Susan Warner Salmond, Teresa A. Pellino, 1994

*Physical Rehabilitation's Role in Disability Management* David W. Clifton, 2005

Bridging the gap between clinical practice and real world interaction this new resource challenges rehabilitation providers to think beyond treatment to disability management It provides the theories and knowledge needed to effectively manage patients disabilities within a managed care framework with the goal of better collaboration with claims adjusters case managers risk managers human resource personnel safety and health officers attorneys peer reviewers and others in the health care system Highly visual and packed with useful information it provides an excellent introduction to the wide variety of interested parties with whom a therapist will interact in the course of managing a client s health The author has more than 23 years of experience consulting with insurance companies employers and the legal sector and offers proven strategies for collaboration between providers and others involved with the health care system Filled with numerous illustrations graphics

and tables many of which are useful for training and education of staff or clients The appendix contains a large and diverse collection of helpful information that is not readily available from other sources It also provides an essential list of resources for further reading about this constantly changing field Chapters cover theoretical issues management models definitions of disability as well as disability management in long term care worker s compensation outcomes management legal implications and more Case studies throughout the book present realistic examples of situations to improve the reader s technical and critical thinking skills Focused on managing disabilities i e functional problems rather than on treating impairments i e diseases encouraging rehabilitation providers to think out of the box and to position themselves better within and beyond managed care

*An Evidence-based Approach to the Treatment and Care of the Older Adult with Cancer* Diane G. Cope, Anne M. Reb, 2006 Description The book offers a comprehensive overview of the treatment and care of the older adult with cancer The evidence based practice approach is timely and provides the foundation for nursing practice that is the expected standard of care The use of the case study at the end of each chapter assists the reader in the synthesis and application of the information The book addresses every aspect of the care and treatment of not only the cancer patient but also the family The chapter on complementary therapy is a bonus Purpose The purpose is to focus on the unique aspects of treatment and care that the older adult with cancer requires Addressing the older adult with cancer is of paramount importance to not only the health of the individual but of the family community and society The book meets the author s objectives Audience This is written for all healthcare providers The authors have written a book that can be used by gerontology nurses but it is appropriate for the multidisciplinary team that provides care to the older adult with cancer The authors have the professional background with applicable experience to edit this book Features This book covers more than the care and treatment of cancer in the older adult It provides necessary background information that demonstrates the impact of cancer on the older patient and their significant others The assessment information is useful for both experienced and novice nurses The use of chapter case studies enables healthcare providers to apply the chapter content The use of an evidence based practice approach to delivering healthcare is essential The information allows nurses to use the findings from reviewed research literature in providing the best care for their patients in an efficient manner that also considers patient preferences the risks and the benefits of treatment or lack thereof Assessment This book provides guidance to novice to expert nurses in the treatment and care of the older adult cancer patient using a holistic approach The chapters are well written by authors who are experts in their field The Cochrane Guidelines are considered the gold standard for evaluating research that impacts treatment selection and care of all patients Their use in the reference materials lends credibility to the information that is presented in the book Publisher
