Light and Heavy Vehicle Technology

Malcolm Nunney, 2007-01-18 Light and Heavy Vehicle Technology Fourth Edition provides a complete text and reference to the design construction and operation of the many and varied components of modern motor vehicles including the knowledge needed to service and repair them This book provides incomparable coverage of both cars and heavier vehicles featuring over 1000 illustrations This new edition has been brought fully up to date with modern practices and designs whilst maintaining the information needed to deal with older vehicles Two entirely new sections of the book provide a topical introduction to alternative power sources and fuels and battery electric hybrid and fuel cell vehicles More information on the latest developments in fuel injection diesel engines and transmissions has also been added An expanded list of technical abbreviations now contains over 200 entries a useful resource for professional technicians in their day to day work This book is an essential textbook for all students of automotive engineering particularly on IMI C G 4000 series and BTEC courses and provides all the underpinning knowledge required for NVQs to level 3 By bridging the gap between basic and more advanced treatments of the subject it also acts as a useful source of information for experienced technicians and technically minded motorists and will help them to improve their knowledge and skills

Diesel Engine and Fuel System Repair John F.

Dagel, 1988 Written by a practitioner this comprehensive guide presents all the information and skills needed by the proficient diesel mechanic Throughout the material emphasizes the practical nuts and bolts aspects of the trade Each chapter contains a brief introduction a list of objectives and a general treatment of the subject at hand a treatment of related component parts and nomenclature that familiarizes readers with terms and parts and a detailed discussion of the theory of operation repair and overhaul assembly testing and adjustment Procedures are highlighted for easy reference Also included are practical advice and approaches to troubleshooting as well as summaries lists of review questions and numerous illustrations

Light and Heavy Vehicle Technology M.J. Nunney, 2016-03-17 Light and Heavy Vehicle Technology Third Edition covers the essential technology requirements of the City and Guilds Motor Vehicle Craft Studies 381 Part 2 for both light and heavy vehicles The book discusses the reciprocating piston petrol and diesel engines with regard to their operating principles and combustion chambers and processes The book also apprises vehicle heating and the importance of engine lubrication and cooling Numerous examples of vehicle maintenance procedure and of diagnosing vehicle misbehavior in service are also considered The book covers the different vehicle systems including intake and exhaust diesel fuel injection ignition automatic transmission control suspension hydraulic brake and electrical systems The vehicle structure manual and
