

MOON PLANTING GUIDE FOR GARDENERS

Gardeners of many cultures throughout history have used the Moen as a convenient growing aid. It is easy to incorporate the Moen rhythms (ie. Walking/Winding and Ascending/Descending phases) into all garden activities. The benefits are immediate and profound. Many gardeners combine the Moen rhythms. There is often three Moen rhythms in a standard moen, each having variable periodicity.

A Full Moon is much stronger at Peak Ascension (highest in the sky) and is weaker at Peak Descension (lowest in the sky). It is transplanting when the Moon is moving DESCENDING the two rhythms reinforce each other. This chart presents the times for the Southern Hemisphere and is based on Australian Eastern Standard Time (EST). Use the Time Zone Adjustment Chart to convert to international time zones.
