

MOTOROLA Universal Remote Control

User Guide

OVERVIEW

Your new Motorola DRC800 universal 4-in-1 remote operates your Motorola or other manufacturers' cable set-top boxes and up to three other devices.

In addition, the DRC800 provides advanced features such as Digital Video Recording (DVR) control and Picture-in-Picture (PiP) support.

You can lock volume control to any of three devices, to make adjusting your home entertainment volume easier. See "Changing Volume Lock." The DRC800 comes from the factory without the volume locked to any specific device.

You can also change what type of device each mode key controls. See "Reassigning Device Keys."

Operating Range

Your remote controls devices from up to 30 ft (10 m) away if you are directly in front of the device, or from up to 20 ft (6 m) away if you are off to either side.

INSTALLING BATTERIES

Your remote requires 2 AAA batteries. The first set of batteries is included, and should last up to 4 months under normal usage.

1. Remove the battery case cover and the old batteries if necessary.

2. Follow the diagram inside the battery case to insert the new batteries.

You have ten minutes to replace the batteries before your remote loses memory.

USING YOUR REMOTE

To select a device to control, simply press one of the device mode keys. **TV, AUDIO, DVD/VCR, CABLE**, at the top of your remote. After you set up the remote to control that device, you may begin using the device.

See "Programming Device Control" for more information on identifying a specific device to a device key.
