Mad Men Episode Guide Six Month Leave:

Mad Men Gary R. Edgerton, 2010-12-18 Don and Betty Draper live in a picture perfect world. He is a hard living advertising executive, a mad man on the fast track. She's a Bryn Mawr graduate and former fashion model, now a suburban princess mother of three children. If they've everything, why are they so unhappy? Why is their dream come true not enough? This book explores, analyses, and celebrates the world of *Mad Men* in all its aspects, and includes an interview with its Executive Producer and an episode guide. Every few years, a new television program comes along to capture and express the zeitgeist. *Mad Men* is now that show. Since premiering in July 2007, it's won many awards and is syndicated across the globe. Its imprint is evident throughout contemporary culture, from features to fashions and online debate. Its creator, Matthew Weiner, a former exec producer on *The Sopranos*, has created again compelling, complex characters this time in the sophisticated go-go world of Madison Avenue through the 1960s, with the excessive drinking and smoking, as well as the playing out of the prejudices and anxieties of an era long neglected in popular culture. *Mad Men* is a zeitgeist show of the early twenty-first century; this book demonstrates partly because its characters are an earlier, confused and conflicted version of ourselves, trying to make the best of a future unfolding at breakneck speed.

The Ultimate Guide to Mad Men Will Dean, 2012-04-24 Who could not be happy with all this Donald Draper season one episode two? Sophisticated, controversial, and stylish, *Mad Men* has been mesmerising its many fans since it first appeared on our screens in 2007. The Hitchcock inspired title sequence, the period Madison Avenue set design, and the impeccably styled costumes have all garnered admiration, but it is the quality of the scripts and the intensity of the drama that keeps people coming back for more. What is Don Draper's big secret? Will Pete and Peggy's love ever see the light of day? And how on earth do they manage to smoke and drink so much over the course of a working day? These questions and countless like them are debated in this brilliant collection, which features comments and discussions from the *Guardian's* Notes from the Break Room blog, coupled with in-depth interviews with the show's creators and stars. Whether you've been watching the series from the beginning or are new to the show, *The Ultimate Guide to Mad Men* is as compelling as the show itself.

Kings of Madison Avenue Jesse McLean, 2009-09 From critical reviews swooning over the elegant storytelling to fashion design paying homage to the show's sleek sensibility, everyone is talking about *Mad Men*. This companion volume provides readers with detailed episode guides, cast biographies, and further historical context, reflecting the breadth and depth of a series that sketches the 1960s cultural landscape with skill. *Analyzing Mad Men* Scott F. Stoddart, 2011-08-12 AMC's episodic drama *Mad Men* has become a cultural phenomenon, detailing America's preoccupation with commercialism and image in the Camelot of 1960s Kennedy era America, while self-consciously exploring current preoccupations. The 12 critical essays in this collection offer a broad interdisciplinary approach to this highly relevant television show, examining *Mad Men* as a cultural barometer for contemporary concerns with consumerism, capitalism, and sexism. Topics include New Historicist parallels between the 1960s and the present day, psychoanalytical approaches to the

show the self as commodity and the Age of Camelot as an Age of Anxiety among others A detailed cast list and episode guide are included Instructors considering this book for use in a course may request an examination copy here **21st Century**

Retro: "Mad Men" and 1960s America in Film and Television Debarchana Baruah,2021-04-16 Numerous contemporary televisual productions revisit the past but direct their energies towards history's non events and anti heroic subjectivities Debarchana Baruah offers a vocabulary to discuss these using Mad Men as a primary case study and supplementing the analysis with other examples from the US and around the world She takes a fundamentally interdisciplinary approach to studying film and television drawing from history memory and nostalgia discourses and layering them with theories of intertextuality paratexts and actor networks The book's compositions style invites discussions from scholars of various fields as well as those who are simply fans of history or of Mad Men **Lucky Strikes and a Three Martini Lunch** Jennifer C.
